8000T Void Matte

Permanent labels

Thermal transfer

Description

A matt coated silver polyester thermal transfer label stock with excellent ink receptivity. The specially treated metallised adhesive leaves the word "VOID" on the surface if the label is removed after application. High quality acrylic adhesive offers superior strength and excellent adhesion for a wide variety of surfaces and temperature ranges.

8000T Void Matte is UL approved when printed with Zebra 3400 wax/resin and 5095 resin ribbons.

Suggested Applications

- Warranty labels
- Capital asset labelling.
- Tamper evident security labelling.
- Price labelling of high-value products.
- Serial number plates.
- Tamper evident asset tracking labels

Technical Specifications

	Description	Caliper	
Facestock	Silver matte polyester	61	microns
