

Z-Ultimate® 3000T White

Permanent labels

Thermal Transfer

Description

A top coated white gloss polyester thermal transfer label stock with excellent print quality. Coated specially for use with Zebra 5095 resin thermal transfer ribbon to produce outstanding print quality and image durability. High-strength acrylic adhesive offers superior strength and adhesion for a wide variety of surfaces. Unparalleled smear/scratch resistance for a thermal transfer label.

Note: Z-Ultimate 3000T White is not to be used for fanfold applications.

Suggested Applications

- Shelf or scan-pallet labels.
- Labels exposed to acid or alkali solutions; top side printed circuit board applications
- Water-immersed labels.
- Labels in contact with moving parts or friction conveyor drives
- . On site, on-demand printing of UL Type R Listing marks/ CSA compliant labelling e.g. rating plates
- Asset tracking labels

Technical Specifications

	Description	Caliper	
Facestock	White pearlescent coated polyester		50 microns
Adhesive	Permanent acrylic based adhesive		23 microns
Liner	65gsm White Glassine Liner		56 microns
		Total	126 microns

Recommended Zebra printers: desktop, mid-range and high-performance thermal transfer printers

Recommended Zebra ribbons: 4800, 5095, 5100

Minimum application temperature: 10°C

Service temperature range: -40°C to 150°C

Recommended storage conditions: One year duration when stored at approx 20C at 50% RH
